What is Sporting Clays?

Sporting clays is a dynamic and versatile form of clay target shooting that simulates various hunting scenarios. Participants move through a course, set in a natural outdoor environment, where clay targets are launched in a variety of trajectories, speeds, and angles to mimic the flight patterns of game birds and the paths of ground rabbits. The benefits of sporting clays are numerous.

Firstly, it offers a highly realistic and challenging shooting experience, allowing participants to practice their shooting skills in scenarios that closely resemble actual hunting situations. This makes it an excellent training tool for hunters looking to improve their accuracy and effectiveness in the field.

Secondly, sporting clays fosters mental acuity, as shooters must quickly adapt to changing target presentations, enhancing their cognitive skills.

Lastly, the sport encourages outdoor activity and provides an opportunity for individuals to connect with nature while enjoying a recreational pursuit.

Overall, sporting clays is not only a fantastic way to refine shooting abilities but also a rewarding outdoor pastime that promotes physical and mental well-being.

Safety at TSC

It is each members responsibility for shooting safely. If you see something, say something. If you're hunting, merely asking "safety on?" after someone shoots is good common sense.

Correcting a newcomer at any range will create safer surroundings for all. Be nice; we all were new to shooting sports at one time. Helping another shooter practice safe firearm procedures is win-win.

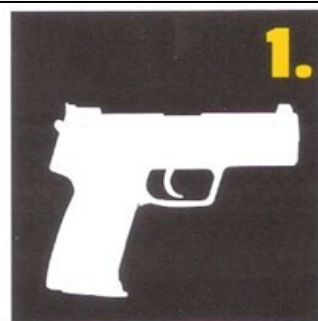

This is OUR Club; therefore, ALL members need to be aware of their surroundings; whether eating, shooting, or walking to your vehicle. If you're new to firearms, please ask for assistance, someone is always happy to help.

Remember, there is no "ego" in safety. A smart shooter is always learning.

A "know it all" is usually the one to do something stupid, with a lame excuse that can never undo an unsafe act.

We are all human and we will make mistakes; but if we watch out for each other, we can prevent mistakes from happening.

Safety never sleeps.

ALWAYS

keep the gun pointed in a safe direction.

ALWAYS

keep your finger off the trigger until ready to shoot.

ALWAYS

keep the gun unloaded until ready to use.

When Using or Storing a Gun, Always Follow These NRA Rules:

- Know your target and what is beyond.
- Be sure the gun is safe to operate.
- Wear eye and ear protection as appropriate.
- Store guns so they are not accessible to unauthorized persons.
- Know how to use the gun safely.
- Use only the correct ammunition for your gun.
- Never use alcohol or drugs before or while shooting.
- Be aware that certain types of guns and many shooting activities require additional safety precautions.

TSC Library

Increase your knowledge! Borrow a book from our library located near the main entrance.

Our free library has valuable and entertaining information about shooting sports, gun safety, maintenance, hunting, collecting, and everything relating to the outdoors.

Please feel free to donate any books or informational resources you have on hunting, fishing, firearms, and conservation.

Hardcover and softcover books accepted.

Much thanks to our librarian:
Greg Metzger
