What is Sporting Clays?

Sporting clays is a dynamic and versatile form of clay target shooting that simulates various hunting scenarios. Participants move through a course, set in a natural outdoor environment, where clay targets are launched in a variety of trajectories, speeds, and angles to mimic the flight patterns of game birds and the paths of ground rabbits. The benefits of sporting clays are numerous.

Firstly, it offers a highly realistic and challenging shooting experience, allowing participants to practice their shooting skills in scenarios that closely resemble actual hunting situations. This makes it an excellent training tool for hunters looking to improve their accuracy and effectiveness in the field.

Secondly, sporting clays fosters mental acuity, as shooters must quickly adapt to changing target presentations, enhancing their cognitive skills.

Lastly, the sport encourages outdoor activity and provides an opportunity for individuals to connect with nature while enjoying a recreational pursuit.

Overall, sporting clays is not only a fantastic way to refine shooting abilities but also a rewarding outdoor pastime that promotes physical and mental well-being.

Trap Shooting

In trap shooting, shooters stand in a line or in individual shooting stations arranged in a semicircle. The shooting stations are usually positioned at different angles from a central trap house.

In each round, shooters take turns calling for a target, and the trap machine randomly releases a clay target, sending it flying away from the trap house.

The objective is to break or shatter the clay target with a shotgun blast. Shooters are scored based on how many targets they hit out of the total number attempted.

Skeet Shooting

Skeet shooting is typically done on a designated field with two trap houses, one high house and one low house. There are eight shooting stations arranged in a semicircle between these two houses.

In skeet shooting, targets are thrown from both the high and low houses in a specific pattern, with one high and one low target released simultaneously at different points along the field.

Shooters move between the stations in a predetermined order, taking shots at the targets as they fly across the field.

The objective is to break both the high and low targets for each station. Skeet shooting is known for its challenging crossing shots and requires quick target acquisition and accuracy.

Safety at TSC

It is each members responsibility for shooting safely. If you see something, say something. If you're hunting, merely asking "safety on?" after someone shoots is good common sense.

Correcting a newcomer at any range will create safer surroundings for all. Be nice; we all were new to shooting sports at one time. Helping another shooter practice safe firearm procedures is win-win.

This is OUR Club; therefore, ALL members need to be aware of their surroundings; whether eating, shooting, or walking to your vehicle. If you're new to firearms, please ask for assistance, someone is always happy to help.

Remember, there is no "ego" in safety. A smart shooter is always learning.

A "know it all" is usually the one to do something stupid, with a lame excuse that can never undo an unsafe act.

We are all human and we will make mistakes; but if we watch out for each other, we can prevent mistakes from happening.

Safety never sleeps.

ALWAYS

keep the gun pointed in a safe direction.

ALWAYS

keep your finger off the trigger until ready to shoot.

ALWAYS

keep the gun unloaded until ready to use.

When Using or Storing a Gun, Always Follow These NRA Rules:

- Know your target and what is beyond.
- Be sure the gun is safe to operate.
- Wear eye and ear protection as appropriate.
- Store guns so they are not accessible to unauthorized persons.
- Know how to use the gun safely.
- Use only the correct ammunition for your gun.
- Never use alcohol or drugs before or while shooting.
- Be aware that certain types of guns and many shooting activities require additional safety precautions.

Range Rental Information

Range Rentals are a part of TSC's income and subsidize a portion of our expenses.

We try to schedule all rentals on the Outdoor Range (OUT) first.

The Rifle Range (RR) is used as overflow. This allows Club members who want to shoot pistol or rifle to have an open outdoor range.
