Hi Members!

Another month down. Sorry to report that 5 stand is not up and running, yet. With the amount of rain we have had, it is hard to get out into the field to set things up. Even cutting the grass is a slow go. Especially when we are down a tractor to cut the lawn. Thanks to the volunteers for cutting the grass between the rain drops.

I don't have much to say currently. I listened to what everyone had to say. Good and bad.

Cook needed for Wednesdays and weekends. Experience a must.

NRA at TSC

Did you know you can join the NRA through TSC and get a Club Discount?

Just go to our website:
TonSportsClub.com

and click the Join NRA logo near the bottom of the home page. This will give you the current "Club Rates and Discounts," even for Life Membership.

You can pay by credit card or PayPal.

If you cannot join via the website, you can sign-up by contacting **Rick Wood**:

Hey members, it is membership renewal time again. I am sure many of you are looking at the renewal and thinking "I haven't used the membership enough, I don't have time" – well, let's fix that!

If you are a pistol shooter, have you tried steel? We will have a day of steel on the outdoor pistol range, check it out.

We have Cowboy Shooting on the 3rd Saturday. Contact me, I run it!

Shotgunners, we have many events you can shoot: Trap, Skeet, Wobble, and don't forget our Sporting Clays course. 5 stand is coming, stop at the shoot room and ask what they have different!

Changes and improvements to the rifle range are coming, for the better. (waiting for a repair part for the dozer).

Being a life member, I have seen a lot of people come and go, only because they just came to shoot one type of gun got bored and left. There is a lot of knowledge at the Club, come out and talk to fellow members old and new, try something new this weekend.

Look me up if you want to talk.

2025-2026 Membership

Yep, it's that time again. Your 2025-26 dues are due, as always, by July 1st. Notices will be sent to the email address you provided us with. So, please check your regular and junk email. (Not receiving Club e-mails? Contact Dan.English@TonSportsClub.com)

As in the past, dues payment can be made at the club, (Wednesday 5-9pm, Saturday & Sunday 9am-4pm), or by mail. This year we are offering the option to pay online based on the type of membership you have, see the links on page 7.

As the cost of goods and labor continue to increase, the TSC board continues to find ways to keep your annual dues at the current rate of \$325. What members may not realize is that your annual dues only cover approximately 40% of the cost to keep the Club doors open. As you know, we rely on several other income sources such as raffles, calendars and member participation in club activities. Annually we lose about 10% of the members for various reasons. So, we ask if there is a member you haven't seen at the club recently, please reach out to them and find out why. As a club we rely on each other to do their part to keep the club open, keeping the TSC environment as inviting and enjoyable as possible. Also, we continue to accept new members to maintain a healthy overall membership of 875-900, which is where we are now. If you know someone who might be interested in becoming a member, bring them into the club for a tour, treat them to one of the many shooting disciplines the club offers. Applications are available at the club as well as on our website. If they want further information have them contact me at Joe.Kopec@TonSportsClub.com

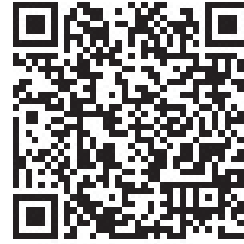

Please, always keep in mind that we are a Club. There is no one group that does or should do all the work, it's a group effort that keeps TSC one of the premier sport shooting clubs in Western New York. We all have common interests whether you shoot a shotgun or pistol, it's those interests that bring us together as a club.

What is Wobble Trap?

A wobbler is a motorized accessory designed to augment clay pigeon throwers. It is stationary, but oscillates on both horizontal and vertical axes; hence the name "Wobble." The shooter calls for the clay to be thrown and it could come from the trap at any angle. Its primary function is to automatically and randomly change the position of each target, ensuring that no two presentations are the same.

Trap Shooting

In trap shooting, shooters stand in a line or in individual shooting stations arranged in a semicircle. The shooting stations are usually positioned at different angles from a central trap house.

In each round, shooters take turns calling for a target, and the trap machine randomly releases a clay target, sending it flying away from the trap house.

The objective is to break or shatter the clay target with a shotgun blast. Shooters are scored based on how many targets they hit out of the total number attempted.

Skeet Shooting

Skeet shooting is typically done on a designated field with two trap houses, one high house and one low house. There are eight shooting stations arranged in a semicircle between these two houses.

In skeet shooting, targets are thrown from both the high and low houses in a specific pattern, with one high and one low target released simultaneously at different points along the field.

Shooters move between the stations in a predetermined order, taking shots at the targets as they fly across the field.

The objective is to break both the high and low targets for each station. Skeet shooting is known for its challenging crossing shots and requires quick target acquisition and accuracy.

What is Sporting Clays?

Sporting clays is a dynamic and versatile form of clay target shooting that simulates various hunting scenarios. Participants move through a course, set in a natural outdoor environment, where clay targets are launched in a variety of trajectories, speeds, and angles to mimic the flight patterns of game birds and the paths of ground rabbits. The benefits of sporting clays are numerous.

Firstly, it offers a highly realistic and challenging shooting experience, allowing participants to practice their shooting skills in scenarios that closely resemble actual hunting situations. This makes it an excellent training tool for hunters looking to improve their accuracy and effectiveness in the field.

Secondly, sporting clays fosters mental acuity, as shooters must quickly adapt to changing target presentations, enhancing their cognitive skills.

Lastly, the sport encourages outdoor activity and provides an opportunity for individuals to connect with nature while enjoying a recreational pursuit.

Overall, sporting clays is not only a fantastic way to refine shooting abilities but also a rewarding outdoor pastime that promotes physical and mental well-being.

Safety at TSC

It is each members responsibility for shooting safely. If you see something, say something. If you're hunting, merely asking "safety on?" after someone shoots is good common sense.

Correcting a newcomer at any range will create safer surroundings for all. Be nice; we all were new to shooting sports at one time. Helping another shooter practice safe firearm procedures is win-win.

This is OUR Club; therefore, ALL members need to be aware of their surroundings; whether eating, shooting, or walking to your vehicle. If you're new to firearms, please ask for assistance, someone is always happy to help.

Remember, there is no "ego" in safety. A smart shooter is always learning.

A "know it all" is usually the one to do something stupid, with a lame excuse that can never undo an unsafe act.

We are all human and we will make mistakes; but if we watch out for each other, we can prevent mistakes from happening.

Safety never sleeps.

1.

ALWAYS

keep the gun pointed in a safe direction.

2.

ALWAYS

keep your finger off the trigger until ready to shoot.

3.

ALWAYS

keep the gun unloaded until ready to use.

When Using or Storing a Gun, Always Follow These NRA Rules:

- Know your target and what is beyond.
- Be sure the gun is safe to operate.
- Wear eye and ear protection as appropriate.
- Store guns so they are not accessible to unauthorized persons.
- Know how to use the gun safely.
- Use only the correct ammunition for your gun.
- Never use alcohol or drugs before or while shooting.
- Be aware that certain types of guns and many shooting activities require additional safety precautions.

Range Hours for TSC Members
